

## Designing with the Network On Chip of AMD Versal™

### GENERAL OBJECTIVE OF THE TRAINING

Learn how to use the NoC to efficiently move your data through Versal™ components.

### COURSE DURATION

1 day - 7 hours

### CONCERNED PUBLIC

- Technicians and Engineers in Digital Electronics
- All our training courses are given at a distance and are accessible to people with reduced mobility.
- People with disabilities may have special training needs. Our partner AGEFIPH accompanies us to implement the necessary adaptations related to your disability. Don't hesitate to discuss your requirements.

### PREREQUISITES

- Any SoC or Versal™ adaptive SoC architecture course
- Familiarity with the Vivado® Design Suite

### NOTES

- Release date: 03/10/2024

### TEACHING STAFF

- **William Duluc, Electronics and Telecoms Engineer, AMD Expert since 2009 and AMD Trainer since 2017 :**
  - Expert AMD FPGA - Language VHDL/Verilog - RTL Design
  - Expert AMD SoC & MPSoC - Language C/C++ - System Design
  - Expert DSP & AMD RFSoc - HLS - Matlab - Design DSP RF
  - Expert AMD Versal - AI Engines - Heterogenous System Architect

## TARGET OBJECTIVES AND SKILLS

- 1 - Identify the main components of the network on chip in Versal components.
- 2 - Use and configure the NoC and integrated DDR memory controllers

## COURSE CONTENT

### DAY 1

- Objective 1
  - NoC Introduction and Concepts {Lecture, Lab}
- Objective 2
  - NoC Architecture {Lecture}
  - NoC DDR Memory Controller {Lecture, Labs}
  - NoC Performance Tuning {Lecture, Lab}
  - Modular NoC RTL Flow {Lecture, Lab}

## TEACHING METHODS

- **Inter-company online training :**
  - Fast Internet connection, webcam, headset
  - Presentation by Webex by Cisco  

  - Provision of course material in PDF format
  - Labs on individual Cloud PC by RealVNC  

- **Intra-company face-to-face training on customer site : (details to be confirmed prior to training)**
  - Suggested supply by the customer :
    - Training room
    - Video projector
    - Whiteboard
    - Individual PC with AMD tools
  - Provided by MVD Training :
    - Course material in PDF format
    - Practical work on individual PCs (loan of equipment available on request)

## RECOMMENDED COMPUTER HARDWARE

- **Inter-company online training :**
  - Recent computer OS Linux or Windows 64-bits
  - Fast Internet, webcam, headset
  - Software tool WebEx Cisco
  - **AMD remote tools :**
    - Software tool RealVNC Viewer
  - **AMD local tools :**
    - Software tool AMD Vivado
- **Face-to-face training on customer site :**
  - Recent computer OS Linux or Windows 64-bits
  - Software tool AMD Vivado

## TEACHING METHODS AND SUPPORT - ASSESSMENT & RECOGNITION

- **Teaching methods :**
  - Alternating lectures, technical questionnaires and exercises on individual machines.
- **Pedagogical follow-up :**
  - Signed attendance sheet
- **Pedagogical assessment :**
  - Continuous assessment and progress sheet :
    - Technical questionnaire
    - Practical work results
    - Validation of objectives
- **Satisfaction survey :**
  - At the end of training: assessment form completed by the trainee
  - At 3 months: evaluation form completed by the trainee after application to the company
- **Certificate :**
  - Training certificate with assessment of learning provided to trainee
  - Certificate of completion provided to employer
